## GIFTS FOR GROWERS

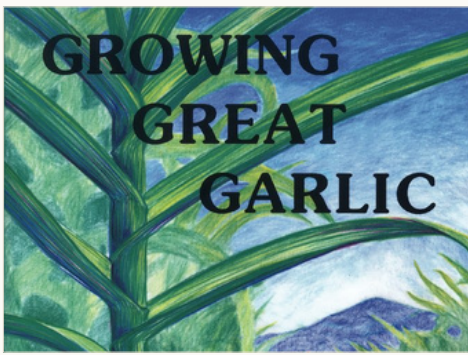

### FOR THE FARMER

*The Lean Farm* by B. Hartman

A must-read for farmers who want to maximize on-farm efficiency through systematized processes. I've saved time and energy thanks to Hartman's advice.

\$40.00

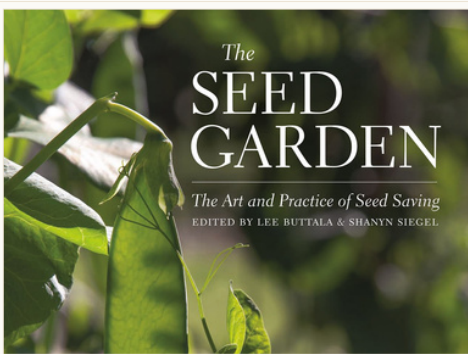

### FOR THE GARDENER

*Growing Great Garlic* by R. Engeland

The garlic growing bible. Soil requirements and the organic growing process. From planting the cloves to harvesting and long-term storage. Be ready for next fall!

\$25.00

### FOR THE SEED SAVER

*The Seed Garden* by Seed Savers Exchange

My go-to reference for population numbers and isolation distances. Beginners and experts will appreciate the easy to read charts and summaries in this treasure of a book.

\$55.00

### FOR THE KIDS

*Any seed catalog*

A book your kids can colour and cut! Explore fruit and vegetables together and include the kids in next year's garden planning. I keep a these on hand at all times.
